Want To Know How You Can Save Money On Gas This Year?

Don't use as much of it!

Here are some tips that really do make a gallon of fuel last longer. They don't sound like much, but with the rising price of a gallon of fuel anything you can do to increase fuel mileage is money in the bank.

The first thing you'll want to do is check the air pressure in your tires. The correct air pressure specifications are on the drivers door jamb on most kars and should be followed. If you do not know how to check your tire pressure come on by the shop & we can help you!

Next, you'll want to take a look in the trunk for anything that doesn't belong. If you are carrying 2 sets of golf clubs, bags of mulch or concrete that you forgot to return to

Home Depot, get that stuff out of your trunk, it is costing you money by adding to the load your kar has to pull.

Do you have lights illuminated on your dash when driving? If so, they are warning you of a problem. Especially the little yellow light that says "Service Engine Soon" or that looks like an engine. Those tell-tale lights mean that your kar is NOT operating at peak performance and you are most likely wasting gas (and money).

Take off the really sporty looking roof rack and you'll gain a little mpg too. Sure, you won't look as cool...but that's not the point!

2008 New Years Gas Saving Special - Save money all year long with our Super Duper Fuel Injection Service

- 1) We'll clean the inside of your engine's air intake system. Even if you keep a clean air filter, tiny pieces of dirt still get into your air intake and build up over time, restricting air flow into your engine.
- 2) Next we'll clean the fuel injectors in your engine. Can you imagine spraying a fine mist with your garden hose? That's what an injector is supposed to spray like. But over time the injector gets clogged up and sprays a solid stream of liquid fuel. Robbing your kar of fuel mileage and performance.
- 3) Then when we're all done with that, we'll put a fuel additive that actually works in your full gas tank!!!

All of this for 175.75! That's a savings of 15%!! And you'll save gas too!!

Call now to reserve your appointment!!

Suburban Vs. the Rolls

This man in a Chevy Suburban pulls up next to a guy in a Rolls Royce at a stop sign. Their windows are open and he yells at the guy in the Rolls: "Hey, you got a telephone in there?" The guy in the Rolls says, "Yes, of course I do." "I got one too... see?" "Uh, huh, yes, that's very nice."

Then the man in the Suburban says, "You got a fax machine?" "Why, actually, yes, I do." "I do too! See? It's right here!" "Uh-huh."

The light is just about to turn green and the guy in the Suburban says, "So, do YOU have a double bed in back there?" And the guy in the Rolls says, "NO! Do you?" "Yep, got my double bed right in back here — see?!"

The light turns and the man in the Suburban takes off. Well, the guy in the Rolls is not about to be one-upped, so he goes immediately to a customizing shop and orders them to put a double bed in back of his car. About two weeks later, the job is finally done and he picks up his car and drives all over town looking for the Suburban. He finally finds it parked alongside the road so he pulls his Rolls up next to it.

The windows on the Suburban are all fogged up and he feels a little awkward about it, but he gets out of his newly modified Rolls and taps on the foggy window of the Suburban. The man in the Suburban finally opens the window a crack and peeks out. The guy in the Rolls says, "Hey. Remember me?" "Yeah, yeah, I remember you. What's up?" "Check this out — I got a double bed installed in my Rolls." And the man in the Suburban says, "YOU GOT ME OUT OF THE SHOWER TO TELL ME THAT?!"
